

## Beautification Day was a success!

On May 18th, Sterling Woods had their first Beautification Day.

The Landscape Committee and Social Committee put together a wonderful day!

The weather wasn't great but that didn't deter the spirits of the fifteen volunteers. Much was done on the property: Garbage was picked up, trees were trimmed and dead branches cut, hostas and flowers were planted. Many thanks to all those who came out and pitched in to help make our community look even better!

Thanks Jimmy, Charlie, Raul, Jim, Colette and Raphy trimmed dead branches and cleaned up the berms. Anne Valerie and Susan picked up trash on the perimeter of the property.

Thank you David for helping with organizing the event and much gratitude to Virginia for cleaning the benches and tables!

Thank you Karen Wills for getting these beautiful flowers.

Thanks to Diane and Kyle for splitting them and planting them.

We are so very grateful for all the hard work that the volunteers put in. We also want to thank those of you who contributed money or donated or bought plants for the project. Beautification Day was one day but the work is not complete. More areas on the property berms need plantings. For those who couldn't make the event or still wish to donate, there will be more opportunities in the future to help out.

**THANK YOU!!!**
